

Counter Hearing Loop Aerial

IL-AE99

Our Counter Hearing Loop Aerial is for use with the Under the Counter Loop System, which is fixed under desks or counters.

When connected to a 1 to 1 Hearing Loop Driver or Speech Transfer System, it transmits a magnetic field enabling the telecoil in the hearing instrument to receive a signal from our hearing loop driver.

It should be positioned within 1.2m of the user's hearing instrument and secured using self-adhesive clips, P-clips or hot glue. It is flexible and can be moulded into the desired shape.

Features

- Magnetic field strength distance to approx 1.2metres

Physical Data

Dimensions	3.96m (156.00") length cable which can be moulded on site to required size/shape by installers
Weight	100g (0.22lbs)
